Description of how you are using Not In Our House in your community:

Kansas Family Partnership, through its Kansas Leadership to Keep Children Alcohol Free Committee, is in the process of engaging other statewide partners to promote the "Not in Our House" Campaign. A partnership agreement form has been developed and is being sent to various groups across the state. The Leadership's first new partner is the Kansas State High School Activities Association (KSHSAA). The Leadership Committee and KSHSAA are printing 2,000 of the Athletic Directors/Coaches Guides that will be distributed to over 1,500 coaches at their annual conference in August. The KSHSAA will also distribute the guides as they speak to coaches throughout the year. The program poster will be reprinted and distributed as well.
